

DEPS

DIPARTIMENTO DI ECONOMIA
POLITICA E STATISTICA

Lionello Franco Punzo

Born in Sarezzo (BS, Italy), divorced, one adult child

**Personal
addresses**

**via Gazzei 23
Radicondoli
53030
Italy**

**Rua do Russel 694/701
GLORIA,
Rio de Janeiro
CEP 22210-010
Brazil**

Voice phone: +39 0577235858

Current positions

Full Professor of Economics at the Department of Economics and Statistics (DEPS), University of Siena (UNISI), Italy

Lecturing in:

the **Economics of Cultural Goods and Heritage, and Sustainable Tourism** (Master/Doctoral levels),

Macroeconomics (intermediate level),

the **Economics of Local Development and Sustainable Tourism** (Intermediate level)

Currently

Consulting on a project on Public goods for ANDE (government of the REPUBLICA ORIENTAL DEL URUGUAY) in the dept of Rocha

07-12/2017

Visiting Professor, Instituto Nacional Ciência e Tecnologia/Políticas Públicas e Estratégias de Desenvolvimento (INCT/PPED) at Universidade Federal do Rio de

Janeiro (UFRJ)

Current Affiliations (other than with DEPS UNISI) **Visiting Professor of Economics**, Instituto de Economia, UFRJ, teaching a postgraduate (Master, Doctoral levels) course on “**Public goods as drivers of development**”

Other positions **as Visiting Professor**, with the **INCT/PPED**, Federal Ministry of Ciência e Tecnologia, at the UFRJ, Rio de Janeiro, where I am researching and lecturing on **Growth and Local Development** (Master/Doctoral levels)

Coordinator of an International Research Group on **Local Public Goods as Drivers of Development**

President of the **Osservatorio per il Turismo Sostenibile**, UNISI,
www.econ-pol.unisi.it/opts

Member of the **Centro de Estudos sobre Desigualdade e Desenvolvimento (CEDE)** at the UFRJ (RJ, Brazil)

Coordinator of the **Maestría en Economía y Gestión del Turismo Sustentable**, a Joint Degree UNISI-Universidad de la Republica (UDELAR), Montevideo (UY), 2003-15

Member of the **Steering Board of the Doctoral Program in Economics**, UNISiena, UNIFirenze and UNIPisa (three Universities of Regione Toscana)

Member of the **University Board of International Relations**

Permanent Institutional address **Department of Economics and Statistics (DEPS), UNISI**
PIAZZA SAN FRANCESCO 7
53100 SIENA (ITALY)
VOICE PHONE : (+39) 0577 232632; +390577 235858
FAX : (+39) 0577232661
punzo@unisi.it
<https://www.deps.unisi.it/it/dipartimento/personale/docenti/lionello-franco-punzo>

Education: Dottore Magistrale in Scienze Economiche, at **UNISI**
The **London School of Economics**, Supervisor : Prof.Michio Morishima

Languages **Italian** (mother tongue)
English (practically mother tongue level)
French (near mother tongue level)
Portugues and Spanish (Fluent, both spoken and written)

Countries of working experience Austria, France, Germany, Czech Republic, Poland, the UK, Slovakia;
The USA, Argentina, Brasil, Colombia, México, Uruguay, Japan

Membership in Professional Societies

SIE (Società Italiana degli Economisti),
AER (American Economic Association),
REDLAC (LATIN AMERICAN NETWORK OF CLUSTERS)
INTERNATIONAL TOURISM ASSOCIATION

Key Qualifications

I am an Economist by training, with an academic history (since 1977) up to the Chair of Economics and Development (since 1987 – to date). I have taught **Macroeconomics, Growth and Development, Economics of Sustainable Tourism and Local Development** at graduate and undergraduate levels in Italy, the USA, France, Germany, Austria, and in Latin America countries (Brazil, Uruguay, México).

In my own research, I have reformulated the issue of Tourism Sustainability with tools of **Evolutionary Game Theory** involving three parties (visitors, residents and “local resources”). This has led to a redefinition of **Tourism Carrying Capacity** and a **novel measurement tool founded on micro-foundations** (see my publications), to take into account **residents’ preferences** (most often, they being the client of my consultancies). This has led to a number of Doctoral theses and work of younger researchers, and it was incorporated in the documents produced by the **Tourism Sustainability Group** of experts (TSG, see below)

While I was a member of the **Tourism Sustainability Group of Experts (TSG)**, established at the **DG Enterprise of the European Commission** (a member since its beginning in 2005 up to its end in 2012), I have participated in the preparatory works for the elaboration of two EC documents: the **EC Communication “Agenda for a sustainable and competitive European Tourism” (Comm. 2007/621 final)** outlining the EC policy to sustainable tourism (this approach has been adopted by the European Parliament), and to the subsequent **“Europe, the world’s No.1 tourist destination, a new political framework in Europe” (Comm 2010/352/3)**

I have expertise in **development and application of sustainability indicators, and other monitoring processes to local development**, as a member of the **special task force** set up at DG Enterprise of the European Commission.

I have been **consultant on Cultural Goods and Sustainable Tourism for the Joint Initiative of the Regions of Centre Italy with the Federal Government and a number of States and Municipalities of Brazil**, collaborating on various projects in 4 states/regions of Brazil (Amazonas, Piauí, Minas Gerais, Mato Grosso do Sul).

Since 2005, I developed professional experience as **(international) consultant in support of participatory processes for tourism-driven local sustainable development: e.g.**

within the **PACPYMES** joint Project of the EU with the Government of Uruguay: in support of the Tourism Clusters in Punta del Este (UY), and the Departamentos de Rocha and of Canelones (UY);

for the **BID and FOMIN/BID**:

FOMIN Projects for the creation of a Tourism Observatory for Estrada Real (Brazil), for Cali **Valle del Cauca (CO)**;

Joint BID-UY Ministry of Tourism Project on the tourism valorisation of thermal resources in **Salto and Paysandú (UY)**, with modernization of local facilities and a new marketing plan.

FOMIN Project for the creation of a **Destination Management Organization** for Rocha (Uruguay), along with development of a long run strategy; it included the follow up with a supervision about the implementation phase.

For the Italian Cooperation, in Brazil, I have drafted a strategic plan for the **Serra das Confusões National Park**, in the State of Piauí

I have extensive experience **in diagnostics of potential for development, and in coordinating participatory processes to draft strategic multi-annual tourism development plans (with a focus on sustainability), and supporting the creation of Destination Management Organizations (DMOs)**

As advisor to INVITALIA, an agency “to attract investments and promote business firms creation”, I have drafted the Regional Plan for Sustainable Tourism at the level of the Italian Region of Calabria

As scientific advisor to FEDERPARCHI (the Italian Federation of parks and protected areas), and to the local governments of the Provincia di Siena and Grosseto, and as team leader I have led the elaboration of the multi-annual socio-economic development plans for the two provinces’ systems of natural and protected areas

More recently, as scientific advisor to the Regional Government of Tuscany, I have collaborated in the setting up of a regional network (financed by the EU) of Tourism Destination Observatories, founded on a large participatory process,

In particular, being responsible for the implementation in 7 such destinations, e.g. art cities the like of San Gimignano, with a high concentration of day-visitor, or Follonica, a major regional beach destination.

As scientific advisor to the Agenzia del Turismo of the Provincial Government of Siena, has participated in the conception and implementation of the program Terre di Siena, for the valorisation through tourism of local cultural goods (including agri-products and arts and craft) as public goods.

Experience of Institutional Collaboration

In all of the above capacities, I have been responsible for the *communication* with (local, national and international) institutions in institutional interviews as well as with *local* communities (and among them), addressing public events to finalize strategic plans and diagnostics and to get social endorsement.

Work with various Institutions (including IDB) has focused, in particular, on:

- Creation of **Destination Management Organizations (DMOs)** and support to the creation of **Tourism Clusters**
- development of **plans of valorisation of material and *immaterial* local cultural goods and heritage**;
- design and implementation of **endogenous models of sustainable development**
- articulation of **destination management strategies** with a **high structural impact on local communities**
- development of adequate **sets of indicators** to benchmark and monitor the implementation of local development plans , including the design and setting up of Tourism Observatories;
- analysis of **medium to long run trends** (both international and local) in tourism and economic performances;
- conception and coordination of **field research in the areas of tourism impact and social participation**;
- promoting **interaction between higher education, field research and growth of local human capital** for a decentralised management of ongoing projects as well as their bottom up formulation.

In this area, I have **promoted an International Network of Tourism against Poverty (INTAP)**, a network of Universities, research Centres, ONG's and state and local government, with the support of the Government of Regione Toscana.

I have a long experience with higher education, at graduate and postgraduate levels, in the fields of macroeconomics and structural/sectoral studies, sustainable tourism and development, and in the broader fields, like general Macro-dynamics, Microeconomics and Network Economies. (I have established two new degree programs in territorial development, tourism and cultural goods of my home institution UNISI, as well as the above mentioned Maestria as a joint degree of UNISI with the Universidad de la Republica, UY)

I have familiarity with International Cooperation Agencies/Policies: with the operational models of some major multi-lateral aid agencies and their procedures and policies, and with funding mechanisms, in respect of tourism development and cultural heritage projects. (I have coordinated a number of research project financed by the EU and the Italian Ministry of Research, and classified of national and/or of international interest.)

I have been working in projects/grants from FOMIN/IDB:

with the **Corporación Rochense de Turismo, Agencia ejecutora**, for the creation of a DMO for the Depts. of Rocha
with the **Instituto Estrada Real** (Agencia ejecutora, Minas Gerais, Brazil), for the creation of an Observatory
with **Fundación Carvajal**, Valle del Cauca (CO), for a plan of local sustainable tourism-driven development;

I have participated in meetings of the Tourism Cluster of BID-FOMIN (at the invitation of the coordinator Santiago Soler, then at BID)

**institutional
collaboration as
Professional
experience**

for **BID**:

I've worked

for the **Ministerio de Turismo e Deportes** for the development of Thermal Tourism in Salto and Paysandú (Uruguay).

the **EU PACPYMES Program** of support to the competitiveness of SMEs in Uruguay, Depts of Maldonado, Canelones, and Rocha;

The **Government of the Republica Oriental del Uruguay**, (Ministerio de Minas),

the **Italian decentralised cooperation of the Central Italian Regions and the Federal Ministry of Tourism** (Brazil),

the **Government of the Estado do Piaui**, Brazil, Project on the Park of Serra das Confusões, with their **Municipalities and local Organizations**

the **Government and Municipalities of Serra da Mantiqueira (estado de São Paulo)**

For the Italian agency **INVITALIA** under contract of the **Government of Regione Calabria** , has developed the regional development plan of sustainable tourism

I have collaborated with **Governmental Institutions within the Regione Toscana**:
Provincial Governments of Siena and Grosseto
Siena Provincial Agency for the promotion of Tourism

I have collaborated with **various cooperation agencies**

**Academic Career
prior to my
current
position**

Full Professor of Economics, University of PISA (1987-1990)

Associated Professor of Mathematical Economics, University of SIENA
(1983-1987)

Assistant Professor of Mathematical Economics, tenure track,
University of SIENA (1979-1983)

Young Researcher, with grants from Ministry of Education and the Italian CNR,
Consiglio Nazionale delle Ricerche (1975-1979)

Fulbright Scholar at UCLA, Los Angeles (1983, 1993)

**Visiting
Positions**

2008-2015

Visiting Professor at **INCT/PPED at the UFRJ**, lecturing
within the **PPED program** on growth/development and
public goods

- 2002-2007** Visiting Professor at **Posgrado de Economia, UFF**, lecturing on sustainability, tourism and local development
- 10/2000- 01/2001** Visiting professor, the **Center for Research on the Japanese Economy (CRJE)**, of the **University of Tokyo**
- 01-09/2000** Senior Researcher, **Instituto de Matematica Pura e Aplicada, (IMPA)**, Rio de Janeiro
- 01-10/1998** Directeur de Recherche, **CNRS-LATAPSES**, Nice Sophia-Antipolis (France),
- 1997 (Jan.)** Visiting researcher at **Institute of Visual Mathematics , University of California at Santa Cruz**
- 10-12/1997** Catedra extraordinaria de Macro-dinamica, **CONACYT/ Universidad Nacional de México (UNAM)**, Ciudad de México
- 1996 (spring)** Visiting researcher at Instituto de Matematica (**IMERL**, Facultad de Ingenieria), and Dept de Economia, Facultad de Ciencias Sociales, **UDELAR (UY)**
- 1996** Visiting senior researcher, the Ministry of Education, at the **SHAKEN/ISER (Socio-Economic Research) Institute, Osaka University**
- 1990s** I have often been visitor to the European University Institute of Florence
- 1983, 1990, 1993** Visiting Professor of Macroeconomics and Monetary Theory, **UCLA**, Los Angeles
- 1985** Senior Researcher at **Suntory-Toyota International Center for Economic Research, London School of Economics**,
- 1984, 1986, 1988** Senior Researcher at the **Institute fuer Hoehere Studien (Institute for Advanced Studies)**, Vienna, Austria
- 1990** Professeur Associé, **CNRS-LATAPSES**, Sophia-Antipolis (Nice)
- 1981** Visiting professor at **Bielefeld University** (Germany)

Ongoing research projects A Principal Researcher of an International Network on **Human and natural “landscapes”: approaches to and experiences in handling public goods that drive growth and development. A comparative analysis**”, within Line 3 (Natural and cultural biodiversity) of the INCT/PPED at UFRJ

Principal Researcher of an international group on **“Growth and distribution: an international comparative analysis”**, focused on countries the **BRICS**

Coordinator of an international research group on Applications of the **Evolutionary Framework and Techniques to Economics**

Current Participation in the elaboration of the **2050 Vision on Tourism** as part of the **2050 Vision on the Country’s Development**, led by the OPP (Oficina de Planeamento e Presupuesto de la Presidencia de la Republica Oriental del Uruguay)

and recent non-Academic projects International Consultant for the FOMIN-BID Project on **“Gestión del Sistema de Oferta Turística del Destino Rocha”**, Department of Rocha, Uruguaye (finalized, April 2017)

Principal Researcher and Coordinator of the implementation in seven municipal destinations in the Regione Toscana (IT) of the **Pilot project for the establishment of a network of Tourism Destination Observatories for Sustainability**, within a program launched by the Regional Government of Toscana as part of the activities of the Network of the European Regions for Sustainable Tourism (NECSTOUR, a legal Association established according to the European Law), (in follow up stage)

One of the expert advisers in the drafting of the **European Charter of Sustainable Tourism**, promoted by the European Commission

Task force member supervising the pilot project for the **implementation of a set of sustainability indicators for European Tourism**, in two networks of European destinations

Advisor to the Government of Regione Toscana, of the Provincial Government and of Agency of Territorial Promotion of the Town of Siena for the project **Terre di Siena**.

Other recent research projects (and related networks)

Comparative country studies **De-industrialization in Italy and elsewhere: routes to compare**, groups at Siena, Brazil, Mexico

Models of Growth and Income distribution in selected BRICS countries, research groups at Siena, UFRJ, USLAP, California State University

Beyond the global crisis: Structural adjustments and regional integration in the EU and Latin America. A long term perspective (UNISiena, UFRJ, UFF, UNAM,

USLAP)

Mexico after NAFTA, with Martin Puchet Anyul of UNAM, MX

European Economies in Transition, with researchers of the Polish Academy of Sciences

Italy and Austria: comparative economic development and industrial structures, Project and International Network nationally financed by CNR grant, with B. Boehm of TU Wien, researchers of the Italian Statistical Office and other researchers of the Institute for Advanced Studies, Vienna.

Local development and tourism: tools and dev't plans

Policies for welfare: applications to the economics of Institutions and to local development, UNISI grant

Tourism Carrying Capacity re-defined, a new approach with tools to compute it, UNISI grant

Development and Tourism Carrying Capacity: game-theoretic analytical tools with a new integrated approach and field applications, UNISI grant

Local sustainable development and tourism, Project and Network of Italian Universities financed by MIUR grant as a Project of National Interest

Tourism-led development in some Brazilian regions, grant from the National and Regional Cooperation Agencies

New perspectives in the analysis and policy design for local development and sustainable tourism. Comparative scenarios. Project and network declared of National Interest and financed by the Ministry of University and Research, MIUR

EU Networks

I have coordinated the following international networks:

IDEE: Industrial development and employment, (UniSiena, LATASPES at Nice Sophia Antipolis: Vienna Technische Universitaet), within the **Targeted Socio-Economic Research of the VI Framework Program of the EU**, DG R& D of the European Commission

The networks on Computable Economics: **EUCompECS** (Italy, France, Germany), **EUCompECS for the Central European countries** (adding groups from the Polish Academy of Sciences, the Czech, Slovak and Hungary Academies), and

of **LACompEcs for Latin American countries** (UNAM Mexico, UDELAR Uruguay), supported financially by the **EU Human Capital and Mobility** action and the **Alfa Program**

Research on development and new analytical tools

Evolutionary game theory and tourism sustainability

New tools to analyse structural change and discontinuous dynamics in large

systems, Project and International Network nationally financed by a Consiglio Nazionale delle Ricerche (CNR) grant, a grant from the Polish Academy of Sciences, and a grant from CONACYT (MX)

New tools for quantitative analysis of economic dynamics, (Universities of Siena, Bolzano, Pisa, Venice; UNAM; Warsaw; Bahia Blanca, AR), Italian Ministry of University and Research (MIUR), and UNISI joint grant ,

New Mathematical tools in Economic Analysis, Project and network of universities declared of National Interest and financed by a MIUR grant

Developments in the qualitative analysis and in the object-oriented simulation exercises in economic dynamics, Project and network of universities declared of National Interest and financed by the MIUR and awarded a research grant

Issues in the computational and recursive approach in economics, Project and network of universities declared of national interest and financed by a MIUR grant

Recent Research and publications deal with

Evolutionary game theory and sustainability, with applications to tourism and public goods management

Sectoral studies, focussing on service and industrial sectors and their dynamics

Development of analyses and models of growth and income distribution, and in particular comparative cross country analyses (focusing on emerging and BRICS countries: Brazil, China, Mexico, in the vein of the Kuznets theory)

Modelling and empirics of endogenous local development , with particular focus on the role of (complex) public goods as drivers, and their governance issues

Modelling of regime dynamics as applied to the Kuznets environmental curve

Development and application of new tools (mostly of information theoretic origins and from the mathematical theories of complex dynamics) to deal with (near)chaotic time series under the hypothesis of a deterministic generating model.

Theoretical research in the areas of Structural Dynamics and Macro-dynamics, Nonlinear and Chaotic dynamics; Growth, Fluctuations and Development, with an emphasis on mathematical modelling and quantitative techniques.

Economic and Social Development, with emphasis on implications for comparative (cross country and time series) applied analysis: focus on the valorisation of idiosyncratic resources as drivers of development, among them cultural and heritage goods (including protected areas and biodiversity) and sustainable tourism development.
